PROFESSIONAL SUMMARY

Business Analyst with 2 years at ICICI SECURITIES on **Microsoft Dynamics 365** — migrated **300+ customer journeys** from legacy CRM across 5 banking channels for **50,000+ users**. Delivered **100+ API integrations**, OCR automation for **150K+ monthly documents**, and SEBI-compliant workflows — achieving **35% efficiency gain** and **20% cost reduction**. Targeting remote BA, CRM Consultant, or Functional Consultant roles.

PROFESSIONAL EXPERIENCE

ICICI SECURITIES Ltd. — ASSITANT MANAGER

April 2024 – Present

Business Analyst / CRM Techno-Functional Consultant · Navi Mumbai

- Spearheaded migration of **300+ customer journeys** from legacy Finnacle/iView to **MS Dynamics 365** across Retail, Operations, Digital, Overseas & Phone Banking for **50,000+ users** — zero data loss.
- Owned BRD, FSD & **200+ user stories** with acceptance criteria; managed full backlog in **Azure DevOps & JIRA** across Agile sprints.
- Defined requirements for **100+ REST API integrations** (Exotel Voice, OmniDocs) across 3 product squads and 2 external vendors.
- Built **OCR automation** processing **150K+ monthly documents** — eliminated manual KYC entry, cut SR handling time ~3 min/case.
- Designed framework to reduce service request rejections and rework, improving success rates from 73% to 96% (+23%).
- Conducted benchmarking analysis of ICICI Securities against key competitors to identify process gaps and improvement opportunities.
- Manage Net Promoter Score (NPS) program, collaborating with 5+cross functional teams to address customer feedback and drive initiatives that improved customer satisfactions.
- Designed and administered multi-channel CSAT surveys, capturing 50k+ customer responses to generate actionable insights.

KEY PROJECTS

Enterprise CRM Migration	Finnacle → Dynamics 365 · 300+ journeys · 5 channels · 50K+ users · zero data loss → **20% cost reduction · 35% efficiency gain**
Feedback Analytics	Manage VOC program across **3+ channels, analyzed 50k+ feedback reponses**, and drove **~20% NPS uplift** through actionable insights.
Service Analytics	Built data models using 5+ years of data (~1M+ records), enabling customer segmentation and reducing churn risk by ~15%.
OCR Document Automation	150K+ monthly docs · automated KYC classification & SR prefill via OmniDocs → **Eliminated manual data entry**
Enterprise Framework Suite	Maker-Checker · Signature Refresh · ReKYC → **60% rework reduction**
